TRAN MANH TIEN

FULLSTACK DEVELOPER

0785174058 t.manh.tien2610@gmail.com https://github.com/tientm2610 Ho Chi Minh City

CAREER OBJECTIVE

Dedicated Fullstack Developer with over 2 years of professional experience in building enterprise-level applications for Banking, Education, and Corporate sectors. Having a strong foundation in Software Engineering and a proven track record of delivering production-grade products for major clients like An Binh Bank and VUS.
While possessing expert-level skills in ReactJS and frontend architecture, I have successfully transitioned into Fullstack development by implementing Java Spring Boot backends, focusing on RESTful APIs, Spring Security (OAuth2). I am now seeking a Backend Java or Fullstack role to leverage my system-wide perspective, clean code practices , and problem-solving abilities to build scalable, high-performance server-side solutions.

EDUCATION

GIA DINH UNIVERSITY (GDU) Dec 2021 - Mar 2024

Software Engineering

GPA 3.13

SKILLS

Programming Languages	Java, JavaScript/TypeScript, SQL
Backend Developement	RESTful API, Servlet & JSP, Java Core, Spring Framework, Spring Security, Spring Data JPA, JWT Authentication , ExpressJS
Frontend Development	ReactJS, HTML, CSS, JavaScript (ES6+), Redux Toolkit, Ant Design, Bootstrap
Databases	MySQL, SQL Server, MongoDB
Tools & Development	Git, Postman, Figma, Webpack, Maven
Other Skills	OOP, Design Patterns, UML diagram design, Problem solving, Team collaboration

WORK EXPERIENCE

I TECHCO COMPANY – VIETNAM JAN 2024 - FEB 2026

Career Summary

Starting as a Frontend Developer, I continuously learned and sharpened my technical skills, eventually taking on team lead responsibilities in company projects. I have contributed to multiple large-scale e-learning and HR integration projects for clients such as Dai-ichi Life, VUS, PNJ, ABBANK, and HOASEN Group, as well as internal company platforms.
Throughout these projects, I have gained hands-on experience in:

- Designed and developed **administrative dashboards** featuring **complex charts** and **reporting systems**.
- Built **consistent and customizable UI systems**, supporting **system-wide color themes** and **Dark/Night Mode**.
- **Technical Leadership:** Acted as a bridge between UI/UX and Backend teams to ensure seamless API integration and optimized data flow for production-grade applications.
- **Real-time & Performance:** Integrated **WebSockets** for instant communication features and applied advanced optimization techniques (Code Splitting, Lazy Loading) to handle high-traffic corporate portals.

PROJECTS

LEARNING MANAGEMENT SYSTEMS (E-learning Platform) 2024 - 2026

Frontend Developer

Tech Stack: ReactJS, TypeScript, Redux Toolkit, Ant Design, WebSocket, Axios.

Key Contributions:

- **Dynamic Course Engine:** Developed a comprehensive learning module supporting diverse content types including Surveys, Videos, Documents, Assignments, and SCORM packages.
- **Advanced Examination System:** Built a high-complexity online testing engine featuring diverse interaction models: Multiple Choice, Essay, and Drag-and-Drop (Text/Image).
- **Architecture & Reusability:** Engineered a modular component library, enabling 100% reuse of the exam interface for the Instructor Grading Portal.
- **Security & Integrity:** Implemented anti-cheating mechanisms, including screen-blur detection and automatic submission upon expiration.
- **Digital Library & Community:** Developed a multi-format library (E-books, Audiobooks, Video) and a discussion forum to enhance user engagement.
- **Cross-Platform Optimization:** Delivered highly responsive, scalable interfaces optimized for both **Web and Mobile** browsers across all corporate clients.

MENTOR & COACHING MANAGEMENT SYSTEM 2025 - 2026

Fullstack Developer

Tech Stack:

- **Backend:** Java, Spring Boot, Spring Security (OAuth2), RESTful APIs, DTOs Pattern, MySQL.
- **Frontend:** ReactJS, Ant Design, Redux Toolkit, SCSS.

Key Contributions:

- **Fullstack Implementation:** Solely responsible for developing CRUD operations and business logic for both Backend and Frontend, ensuring seamless data flow and system stability.
- **Security & Authorization:** Implemented **Spring Security with OAuth2** to manage secure authentication and complex Role-Based Access Control (RBAC), delivering customized interfaces for Admins, Mentors, and Students.
- **Mentor-Student Matching:** Developed a booking system allowing students to view real-time availability of mentors and register for skill-based training sessions.
- **Reward Workflow:** Built a management module where managers can evaluate student progress post-training and trigger a reward system for mentors.
- **Dynamic UI Engine:** Implemented a flexible theme-customization feature, allowing administrators to modify system primary colors, banners, and wallpapers dynamically.
